ILS APPLICATION DEMO SUITE

# HBO Bedrijfskunde

**Inleiding Bedrijfskunde (HRD-P-IBDK-25)**

A customized suite of pedagogical activities mapping core operational goals to outcomes, milestones, and feedback loops.

# The Curriculum Strategy

Structuring education from institutional framework to point-in-time mastery snapshots.

# Institutional Hierarchy & Architecture

## The Backbone (Vertical Alignment)

Ensures that every single student deliverable maps back to the higher educational structure:

**Hogeschool Rijndelta → Hogere Beroepsopleiding → Bedrijfskunde → Propedeuse (Year 1) → Inleiding Bedrijfskunde**.

## The Intelligence Layer (Horizontal Alignment)

Instead of loose file folders, outcomes assess core business administration benchmarks:

Students receive continuous point-in-time assessments tracking **SWOT analysis competence**, **Business Model formulation**, and **Professional Reflection**.

# 10-Week Module Timeline & Deliverables

**Weeks 1–3**

Foundation theories, organizational structures & DESTEP variables.

**Week 5**

**Assignment 1 Due:**
De Bedrijfsscan & SWOT Analysis (40%).

**Week 8**

**Assignment 2 Due:**
Value Proposition & Video Pitch (40%).

**Week 10**

**Assignment 3 Due:**
Professionele Reflectie Report (20%).

# Assignment 1: De Bedrijfsscan

A rigorous external & internal SWOT Diagnostic of a local enterprise.

# Assignment 1 - Case Study & Objectives

## Diagnosing Real-World Challenges

Students select a medium-sized enterprise operating in the Rotterdam region. Acting as junior business consultants, they perform a comprehensive strategic audit of the business.

**Core Tasks:** Determine macro-environmental influences (DESTEP), list crucial internal strengths/weaknesses, and compile a standardized confrontational matrix showing strategic direction options.

# Assignment 1 - Step-by-Step Instructions

- **Step 1: Stakeholder & Context Selection:** Select a business with at least 15 FTEs. Conduct an introductory qualitative interview with a structural manager.
- **Step 2: External Factor Mapping:** Formulate 3 distinct Opportunities and 3 Threats utilizing verifiable macro-environmental and industry trends (DESTEP & Porter's Five Forces).
- **Step 3: Confrontation Matrix Setup:** Link the top external variables directly to confirmed internal strengths & weaknesses.
- **Step 4: Strategic Recommendations:** Document a 1500-word advisory scanning report detailing priority focus zones for management.

# Assignment 1 - Rubric Matrix (15 pts total)

| Criterium | Onvoldoende (1pt) | Voldoende (2pts) | Goed (3pts) |
|---|---|---|---|
| **DESTEP Analysis** | Superficial variables; lacks objective external data sources. | Solid DESTEP mapping with realistic environmental indicators. | Sophisticated analytical trends backed by credible statistics. |
| **Confrontation Quality** | Matrix contains logical mismatches or unstructured links. | Accurately connects external threats to internal defenses. | Brilliant strategic synthesis that pinpoints core leverage. |
| **Advisory Integrity** | Generic solutions not connected to previous SWOT findings. | Feasible tactics resolving prominent confrontational points. | Innovative, highly tailored solutions with feasibility estimates. |

# Assignment 2: Waardepropositie Pitch

Formulating modern business models using the Triple Bottom Line Canvas.

# Assignment 2 - Innovative Delivery Workflow

### 1. Canvas Draft

Using the Triple Bottom Line Business Model Canvas, students structure social, economic, and ecological value components.

### 2. Video Pitch

Create a structured, engaging 3-minute video pitch highlighting how their proposal addresses the market gap.

### 3. Sequence Lock

**ILS Rule:** Access to Assignment 2 is restricted until Assignment 1 achieves a minimum "Voldoende" mastery score.

# Grade Weighting & Mastery Alignment

- **Assignment 1: De Bedrijfsscan (40%)** - Focuses on Strategic Analysis and DESTEP competencies.
- **Assignment 2: Waardepropositie Pitch (40%)** - Assesses Business Modeling & Communication skillsets.
- **Assignment 3: Professionele Reflectie (20%)** - Tracks Professional Development and Learning Progress.

# Demo Setup Complete

This configuration demonstrates how structural assignments feed quantitative point-in-time data snapshots straight to the Teacher Cockpit dashboard.
